Need information on What is Backyard Orchard Culture?

Since the goals are different, it is not commercial orchard culture. It is **high density planting**. Lots of trees in a small area; hedgerows, espaliers, four trees in one whole, multiple-budded trees. It is **successive ripening**. One variety after another—fruit all season long. It is **summer pruning** for tree size control. It is a take-charge, can-do attitude with respect to pruning, thinning and spraying. Most importantly, it is the satisfaction of producing and the pleasure of sharing **tree-ripe** fruit. See the Dave Wilson Nursery handout titled **"What is Backyard Orchard Culture?"**. Visit their website at www.DaveWilson.com.
